

Optellen en aftrekken tot 1000 met brug bij de tientallen en de eenheden

Los op. Je mag steeds tussenstappen noteren.

$$560 + 70 = (560 + 40) + 30 = 630$$

$$180 + 190 = 280 + 90 = 280 + 20 + 70 = 370$$

$$470 + 350 = 770 + 50 = 770 + 30 + 20 = 820$$

$$650 - 90 = (650 - 50) - 40 = 600 - 40 = 560$$

$$840 - 370 = (540 - 40) - 30 = 500 - 30 = 470$$

$$720 - 230 = (520 - 20) - 10 = 500 - 10 = 490$$

$$365 + 8 = (365 + 5) + 3 = 373$$

$$365 + 58 = (365 + 50) + 8 = 415 + 5 + 3 = 423$$

$$365 + 158 = (465 + 50) + 8 = 515 + 5 + 3 = 523$$

$$243 - 7 = (243 - 3) - 4 = 240 - 4 = 236$$

$$243 - 27 = (243 - 20) - 7 = 223 - 3 - 4 = 216$$

$$243 - 127 = (143 - 20) - 7 = 123 - 3 - 4 = 116$$

$$695 + 38 = (695 + 30) + 8 = 725 + 5 + 3 = 733$$

$$924 - 76 = (924 - 70) - 6 = 854 - 4 - 2 = 848$$

$$506 - 89 = (506 - 80) - 9 = 426 - 6 - 3 = 417$$
